

NEW ZEALAND FIELD DAYS BRINGING BRISK BUSINESS

Excellent Acceptance of RLF Specialty Liquid Fertiliser Products

Consultant

Introducing the NZ Team

Jason Reid and Josh Morrison of Element Raw Materials Ltd. are both working hard telling the RLF story, and introducing a small, but powerful range of proven RLF products to the farmers of New Zealand.

Pasture Plus Ultra Foliar and **BSN** Seed Primer were a key focus for the action on the day and all farmers spoken to were interested to learn more.

Jason also advises that their application to the Innovation Centre for **BSN** to be showcased has been accepted. The **Fieldays Innovation Centre** showcases inventive agricultural solutions to the marketplace and helps facilitate networks and pathways to commercial success.

This is excellent news indeed.

Both Jason and Josh say that the Field Day was a busy and successful one, and that it was great to catch up with old customers as well as meeting new. There are several more Field Days to come.
