

PREPARING TO GO INTO THE FIELD

A New Year and a New Resolve to Deliver the Best Technical Services

Authorised for release by:

Melanie Wu,
Deputy General Manager, RLF China,
and translated by Echo Dong

RLF's Agricultural Technology Services Team for the Dalian Station was officially launched for 2019.

The Team from the Sales, Technical and Marketing Departments gathered in Dalian with the cooperation of the Runjie Agricultural Resources in Wafangdian City. They were preparing for a series of visits to local retailers and cherry growers.

Together, they promoted RLF products and offered their services to give technical guidance for farmers. The information was disseminated by many forms and means, with banners, posters and face-to-face consultations.

The RLF Team showed great spirit and have started the year in the manner in which they mean to continue.

What follows is their story in pictures as they prepared to go into the field delivering only the best combination of sales, marketing and technical services that they can.

The content of this media page was accurate and current at the time that it was written. This media release is provided for interested customers and other parties, and will remain a matter of RLF's historical record.
