

RLF RELEASES A SERIES OF EDUCATIONAL VIDEOS

'Farmer to Farmer' featuring Grant Borgward is informative and insightful

by Carol Phillips, Executive Consultant Communications and Media

Farmer to Farmer is a series of straight talking crop and fertiliser presentations for farmers everywhere.

Grant Borgward has been RLF's National Sales Manager for the past 18 years, but first and foremost he is a farmer. Grant farms 8,000ha in Western Australia. He relates to the experiences of farmers in all growing environments, and has vast knowledge about the practicalities of fertiliser routines and practice. He also has an empathetic appreciation of the difficulties often associated with farming enterprise, and he brings much of this experience to his presentations whilst talking to you in each of the videos.

In the series Grant covers a range of topics, all important to farmers and growers.

He gives sound advice about value-adding to every investment decision you make with respect to crop nutrition and he explains in simple and straightforward terms some of the solutions available for the farmer today.

Series 1, begins with **About PHOSPHORUS**. And there are 16 more to follow in the first series alone. The full catalogue of presentations include :

About PHOSPHORUS

Phosphorus is essential for maximum yield

RLF is the new era for foliar fertiliser based on **phosphorus**

The plant gets extra **phosphorus**

Sufficient **phosphorus** to fill the grain to maximum yield

Being able to get extra **phosphorus** from the soil is a BIG positive

Being able to establish a larger root system is a BIG positive

It actively improves soil organic matter

It is the key to driving future profits on our farms
